EXECUTIVE SUMMARY

Vimix Technologies LLP is pleased to present this proposal to design and develop a **secure, mobile-first Employee Management Application** for employers and staff.

This project will deliver:

- Employer & Staff mobile applications (React Native with Expo).
- Secure backend (Node.js) with leave, payroll, and timesheet management.
- Attendance tracking with **Facial Recognition & Geo-Fencing**.
- Performance reviews and recruitment module.
- Cloud deployment on Digital Ocean / AWS.

Our Agile methodology ensures transparency, iterative delivery, and measurable results.

PROJECT OVERVIEW

Objectives

- Develop a comprehensive **mobile application** for Employers & Staff.
- Enable employee onboarding, leave requests, payroll, and performance reviews.
- Implement secure attendance logging with facial recognition and geo-fencing.
- Provide project & task allocation with timesheet management.
- Add recruitment & job posting module.

Target Audience

- **Employers:** Manage staff, leaves, payroll, projects, and recruitment.
- **Employees:** Apply leave, log attendance, track tasks, view payroll & reviews.

Success Criteria

- Seamless attendance capture with face recognition & geo-fencing.

- Accurate payroll with LOP deductions.
- Smooth mobile experience for both iOS & Android.
- Secure handling of employee data.

ARCHITECTURE APPROACH

- **Mobile App (React Native + Expo)** → Staff & Employer applications.
- **Backend (Node.js + Express)** → APIs for leave, payroll, projects, and reviews.
- **Database (PostgreSQL / MongoDB)** → Employee, payroll, and task data.
- **Facial Recognition Module** → Mobile Camera Capturing.
- **Cloud (Digital Ocean / AWS)** → Hosting & storage.
- **Authentication** → JWT-based secure login.
- **Deployment** → App Store & Play Store submission.

TEAM COMPOSITION

- Project Manager – Coordination & Client Communication
- UI/UX Designer – Mobile App Screens
- Frontend Developers (React Native) – Employer & Staff Apps
- Backend Developers (Node.js) – APIs & Integrations
- DevOps Engineer – Cloud Setup & CI/CD
- QA Engineers – Testing & Compliance

MILESTONES & PAYMENT TERMS

Milestone	Timeline	Payment
Project Initiation	Project Initialization	₹75,000
1st Milestone	End of Month 1	₹50,000
2nd Milestone	End of Month 2	₹50,000
Final Delivery	End of Month 3	₹25,000
Total	90 Days	₹200,000 + 18% Taxes

ADDITIONAL COSTS & SUBSCRIPTIONS

- App Store Developer Program: \$100 (one-time)
- Google Play Console: \$25 (one-time)
- Expo Subscription: \$20/month
- Cloud Hosting (Digital Ocean/AWS): ~\$30/month

TERMS & CONDITIONS

- Scope changes assessed separately.
- Full IP rights transfer post-final payment.
- Strict NDA & confidentiality.
